ENVIRONMENTAL AND SUSTAINABILITY POLICY STATEMENT

Jackson Plating Limited regards the promotion of environmental initiatives as an essential business objective.

We are committed to:

1. Consideration of the current ISO 14001 Standard whilst complying with current and relevant environmental legislation, regulations and our own business standards.
2. Providing energy saving solutions whilst minimising energy, resources, and raw material consumption.
3. Focusing on waste minimisation by introducing techniques to reduce, recover, re-use and recycle materials.
4. Manage the disposal of waste, particularly hazardous waste to minimise environmental harm.
5. Informing and educating our employees and clients on energy and environmental issues relevant to the project undertaken.
6. Communicating / making available our environmental and sustainability policy to our employees, business partners, suppliers and the public.
7. Minimise environmental impacts via sound and professional sustainable procurement policies that ensures environmental considerations.
8. Control emissions to land, air and water that prevent/minimise environmental harm.
9. Minimising and monitoring noise disturbance.
10. Prevent pollution by utilising non-polluting techniques and practices where possible.

We aim to continually improve our environmental standards, maximise sustainable procurement and promote the use of sustainable energy whilst promoting recycling of all waste streams.

Objectives and Targets will be set accordingly and reviewed annually.

The Policy will be continuously maintained to ensure continuous improvement and statutory compliance and particularly as the business changes in nature and size.

To ensure this, the policy and its operation shall be reviewed regularly and amended as necessary.
